While there had been no expecta-tion of any action by this government on the Mexican situation pending President Wilson's return from Cor-nish, N. H., recent almost kaleidoscopic developments in Mexico, particularly in Mexico City, are believed to have prompted the administration to immediate steps. Just what those steps will be and how far the joint action, of whatever sort it may be, between the United States and the Pan-American united States and the Pan-American group, will extend, were subjects of considerable speculation here today. The conference is the direct result of the failure of the Mexican factional leaders to heed President Wilson's recent statement urging them to compose their differences and restore peace in the southern republic. President Prizes Latins' "Good Offices."

The conference will be of an informal and confidential nature.

It was believed here by those who have been most closely following the Mexican situation, however, that there would be some sort of joint Pan-American action, even to joint military acicar action, even to joint military ac-tion, if necessary. Attention was di-rected to utterances by the president in which he had spoken of "mutual helpfulness" between the United States and the other American republics, and this gave rise to the belief that he had been thinking for some time past of joint Pan-American action in Mexico. It is not believed, however, that military operations are being contemplated as a next step.

It was recalled also that President Wilson a year ago accounted year ago.

The opinion of political experts is that the latest Roosevelt statement an-nounced the beginning of the end for the Bull Moose in New York at least. It was believed that the colonel had taken this means to let his erstwhile followers know that backsliding would be forgiven or at least condoned by their former leader.

A Shock to Many.

To those who remain strict Roosevelt adherents, the colonel's words were more or less of a shock. For obvious reasons they refused to compare the stress of ment upon or construe his speech. This view of the situation also was held by many members of the Republican party. Charles D. Hilles, chairman of the Republican national com-

man of the Republican national committee, expressed the sentiments of G. O. P. leaders when he said:
"I don't believe it would be wise to attempt to construe Colonel Roosevelt's Oyster Bay statement one way or the other. Under existing political conditions I shall have to ask you to excuse me from any comment whatever."

Other leaders of both parties also held it was inadvisable to stir up political controversy at this early date. If Progressives are to flock to the standard of the G. O. P., it is not the intention of the Republican leaders to check the movement by stirring up reproaches on the score of bad faith.

In the ranks of the national Progressive party the political program is as yet unsettled and estimates of possible disaffection have not been recorded.

It was recalled also that President Wilson a year ago accepted very gladly the "good offices" extended by the representatives here of Brazil, Argentina and Chile, which led to the Mexican mediation conference at Niagara Falls. These representatives of the A. B. C. powers, with the ministers from Bolivia, Uruguay, and Gnatemala, are the Pan-American representatives invited to Thursday's conference.

Kansas City Stock Yards, Aug. 2.—The cattle market picked up a little after Tuesday last week, and sales today are steady with the close of last week, 10 to 20 cents above a week ago. Receipts were 11,000 today, but a few cattle came after Tuesday last week, buyers were in a receptive mood, needing material, although they tried to make a slow market out of it today. There were practically no prime cattle here, owners rebelling at the treatment they got last week, and it is certain that ten dollars or more will be paid for the first good cattle to come. Some extra heavy steers from Southern Kansas, weighing around 1800 lbs..brought \$9.60, very fat. Some fancy heifers sold

at \$9.50. Kansas pasture steers brought \$7.80 to \$8.90 today, most of them at \$8.30 to \$8.50, some plain horned steers at \$7.75. The trade was grain featured with long distance shipments, 11 cars of good Oregon cattle selling at \$8.25 to \$8.35, 1200 to 1275 lbs. average, and 25 cars of five-year-old California alfalfa steers brought \$7.85, about like the train of same cattle here last Thursday at \$7.90, but a little lighter, 1250 lbs. average. Plain fleshy feeders, 1150 to 1250 lbs. sold at \$8.15 and \$8.30, and some Meers suitable for a quick finish in the feed lot sold to killers at \$9. \$1.00 ks average. Plain fleshy feeders, 1150 to 1250 lbs. sold at \$8.15 and \$8.30, and some Meers suitable for a quick finish in the feed lot sold to killers at \$9. \$1.00 ks average light for a feeders is improving, the supply is larger, and there is an immense demand developing. In the quarantine division 112 cars arrived, and sold steady to weak. Some good fed steers from North Texas sold in the quarantine division at \$8 to \$8.50. Oklahoma grass steers largely at \$6 to \$7.25.

Hogs sold at \$7.3214, to order buyers, packers paying \$7.27145, bulk of sales \$6.00 to \$7.25. The supply here has been light for a week, but Omaha and Chicago have been getting good runs. The statement has been made in some quarters that the common price for hogs will go to six dollars, in view of evidences at hand that hog raising is now on a large scale, and with fewer disease losses than formerly. Sheep and lambs made good gains last week, and are stronger today, receipts \$.000 head, all natives. Lambs sold at \$8.75 today, but strictly prime westerns would bring \$9 to \$0.15. Ewes are selling up to \$6.75, breeding ewes \$7.25, feding lambs worth around \$7.75. Three londs to feeder to yeers at \$6.65. Early shipments of westerns will get a rousing reception here. J. A.
